PACIFIC ENERGY PARTNERS, L.P.

Pier 400, Berth 408 Project

General Introduction to Pacific Energy Partners, L.P.

Pacific Energy is a provider of crude oil and refined products pipeline transportation and storage services, with significant experience managing the complex environmental and engineering details related to the development of a project such as Pier 400.

We are a master limited partnership headquartered in Long Beach, California. We are engaged principally in the business of gathering, transporting, storing and distributing crude oil, refined products and other related products. We generate revenue by transporting such commodities on our pipelines, by leasing capacity in our storage facilities, and by providing other terminaling services. We also buy and sell crude oil, activities that are generally complementary to our crude pipeline operations. We conduct our business through two business units, the West Coast Business Unit, which includes activities in California, and the Philadelphia, PA area, and the Rocky Mountain Business Unit, which includes Alberta, Canada. For more information about Pacific Energy Partners, please visit our corporate web site www.pacificenergypartners.com.

For more information about Pacific Energy Partners' Pier 400, Berth 408 project, please visit our link on our corporate web site or enter directly at www.PacificEnergyPier400.info or www.PacificEnergyPier400.com.
